

Konftel C50300 Hybrid

Shine together. Exceptional video conferences.

Konftel C50300 Hybrid is a flexible range of premium video collaboration solutions for small to medium meeting rooms, combining the Konftel Cam50 PTZ conference camera and a Konftel 300 model with OmniSound® audio quality. Optional audio expansion caters for up to extra large rooms.

The Konftel OCC Hub brings the whole kit together, so a single USB cable is all you need to connect the camera, the conference phone and the room's screen to the collaboration app on your laptop. The hybrid concept also delivers the freedom to welcome participants via regular phone calls.

Choose the model that matches your company's telephony solution: IP telephony, wireless DECT or analog.

OmniSound® 

- Room type: Small to Medium
- HD 1080p 60fps
- Exceptional image quality
- Pan-Tilt-Zoom
- 72.5° field of view
- 12x optical zoom
- One Cable Connection Hub
- OmniSound® with HD audio
- Two-year warranty
- Climate Neutral Certified

IMPRESSIVE OPTICS

The Konftel Cam50 brings exceptional image quality to your video conferences at a fraction of the cost of other comparable conference cams with PTZ (Pan-Tilt-Zoom). It is based around premium class optics and outstanding precision – all the way from the lenses to the image sensor and the technology used to optimize the quality of the video. Even in low light, the image is crisp and clear.

HYBRID CONFERENCES

Choose the model that matches your company's telephony solution: Konftel C50300IPx Hybrid for IP telephony, Konftel C50300Wx Hybrid for wireless DECT or Konftel 300 Analog Hybrid for regular analog telephony. What you get is a flexible premium package for video conferencing with phone calls as a back-up. We call it Hybrid Conferencing.

NO HASSLE GUARANTEE

Konftel OCC Hub is, as the name suggests, the hub of the video collaboration solution, offering One Cable Connection to the conference camera, speakerphone and screen. In practice, this means that the Konftel C50300 Hybrid kit fully supports BYOC – Bring Your Own Computer, where the user can bring the collaboration service to the meeting room on any laptop with a USB port.

CLIMATE NEUTRAL PRODUCTS

Konftel is certified in line with the Climate Neutral standard. This means that we have offset all our greenhouse gas emissions and are taking action to further reduce those emissions. When you choose a Konftel product, you keep a clear climate conscience while supporting your organization's growing need for video collaboration.
